

Monotype.

Introducing the Monotype Agency Platform.

Explore the Monotype Agency Platform.

A single source of truth for all your font needs with plans to fit your team, big or small.

[Discover the platform](#)

The smarter way for agencies to work with fonts seamlessly design, manage, quote, and deliver.

Turn font chaos into creative confidence.

The Monotype Agency Platform is a purpose-built solution for modern creative agencies. Built for speed, accuracy, and professionalism, it centralizes your font discovery, management, and licensing in one platform — pitches move faster, designs stay compliant, and your team delivers with confidence and credibility.

250,000+ fonts, ready for instant prototyping.

With access to one of the world's largest type libraries, your team can experiment freely, prototype endlessly, and present polished concepts — and only buy fonts when you're ready to deploy.

Built for creative speed.

Auto-activate exact font versions in Adobe, organize shared font folders, and keep teams aligned across every campaign. Designed for the way agencies actually work.

Pitch-ready quotes. No delays.

Stop guessing font licensing costs. Our real-time quotation tool gives your team clear, client-ready pricing — from first draft to final delivery. No more back and forths or costly last-minute surprises.

One place for all things type.

Upload existing licenses, run usage scans, and manage access from one central hub. Whether you're scaling creative output or tightening controls, you stay compliant and in control. Allow your team to work creatively but within scope.
